2020 Internships

Baraboo Hills Land Stewardship Intern
Learn about land stewardship and help manage preserves in the beautiful Baraboo Hills this summer! Work in the field alongside Conservancy staff and gain hands-on experience in invasive species management, boundary posting, easement monitoring, GIS, prescribed fire, volunteer engagement, and more. This is a 12-week paid summer internship based in our Baraboo, WI office. Deadline: February 23.

Land Protection Legal Intern
Gain experience with conservation legal work and help us work towards land dedication, the highest level of legal protection for land in Wisconsin, for key nature preserves. You’ll prepare and submit land dedication paperwork, working with Conservancy land protection and legal staff and Wisconsin Department of Natural Resources staff. This is a 12-week paid summer internship based in our Madison, WI office. Deadline: February 23.

Agriculture Research and Technology Intern
Are you interested in sustainable agriculture or food systems? Help us work with farmers to increase adoption of conservation practices that lead to healthier soils and cleaner water. You’ll work on data collection and analysis, conduct outreach to farmers, and assist with special events like farm field days. This is a 12-week paid summer internship based in our Madison, WI office. Deadline: March 1.

Mukwonago Land Management Intern
Spend your summer working outdoors in the Mukwonago River Watershed! Help preserve habitat quality by assisting with rare species mapping, land stewardship projects, and research on prairie strips in crop fields. You’ll also work on water-related projects such as monitoring boat recreation and conducting public outreach about aquatic invasive species. This is a 12-week paid summer internship based in our East Troy, WI office. Deadline: March 1.

The Nature Conservancy is an Equal Opportunity Employer with a commitment to a diverse and culturally competent global workforce.
