

VOLUNTEER MINI PROJECT

Foot Bridge Design and Construction

- Henderson Park in Washington County has a spot in its trail that could benefit from a foot bridge
- The foot bridge would need to support the weight of an ATV for land management staff access to the site
- Volunteer will need to design the bridge as well as build it
- Tasks include designing, fabricating, and constructing the bridge
- Experience with woodworking and construction required
- Experience with foot bridges a plus
- On-site at Henderson Park, all tools/supplies provided
- Estimated 50-75 hour project
