

# Clean energy tax credits support jobs and the economy in Nebraska

People around the country are benefiting from the 2022 clean energy tax credits. To quantify those benefits, TNC partnered with BW Research to model the economic impacts of the tax credits from 2025 to 2032. In this analysis we grouped the tax credits by sector: power, industry, buildings and transportation.

This research shows that clean energy is critical to supporting American jobs and the economy. Congress needs to maintain these tax credits so that they can continue to deliver for our state and our environment.

## In Nebraska from now to 2032, the clean energy tax credits will:
