

**TNC's Ohio Mitigation Program Credit Fees by Primary Service Area
(updated 8/2017)**

The credit fees are based on “full cost accounting” in accordance with the 2008 Mitigation Rule (33 CFR §332.8(o)) and therefore the fees reflect expenses for land or property interest acquisition, project planning and design, construction, plant materials, labor, legal fees, monitoring, remediation or adaptive management activities, long-term management, and costs associated with the administration of the program. The Conservancy evaluates the credit fees on an annual basis and they may be adjusted as deemed necessary to reflect the full cost accounting.
