August 24, 2021 Meeting 2

Meeting: Portfolio Development Process: Hazards and NBS Project Types

Objectives

- Review and update Existing Planning and Projects Footprint spreadsheet: Participants are aware of planning and project efforts that are already underway across the three-county area
- Participants have a baseline knowledge of SUNS Portfolio development process and Working Group role in process
- Project team has information necessary (hazards, project types) to generate suitability maps
- Refined Existing Planning and Projects Footprint spreadsheet
- List of hazard types and data sources for consideration in NBS Opportunity mapping
- List of project types for SUNS suitability maps

Materials: [Agenda and Notes](#) | [Presentation](#) | [Recording](#) (download)

September 30, 2021 Meeting 3:

Meeting: Portfolio Development Process: Hazards and NBS Project Types

Objectives

- Review and update Existing Planning and Projects Footprint spreadsheet (LINK TO <https://nu.maps.arcgis.com/apps/instant/interactivelegend/index.html?appid=db2ee17b37164146931e6b6aa52e2260¢er=-85.3527,29.922&level=9>): Participants are aware of planning and project efforts that are already underway across the three-county area
- Participants have a baseline knowledge of SUNS Portfolio development process and Working Group role in process
- Project team has information necessary (hazards, project types) to generate suitability maps
- Refined Existing Planning and Projects Footprint spreadsheet
- List of hazard types and data sources for consideration in NBS Opportunity mapping
- List of project types for SUNS suitability maps

October 28, 2021 Meeting 4:

Meeting: Portfolio Development Process (ctd.): Priority Locations and Regional Strategies

Objectives:

- Review project planning principles
- Decide on final list and definitions of up to 4 regional strategies for project selection
- Compile list of working group members' priority locations

Materials: [Agenda and Notes](#) | [Presentation](#) | [Survey123 Instructions](#)

December 9, 2021 Meeting 5:

Meeting: *Regional Strategy Meetings: Information Session and Year End Updates*

Objectives:

- Review meeting format, set-up, and objectives for Portfolio Workshop series
- Update on Accelerator projects
- Working Group members share update on on-going work

Materials: [Agenda and Notes](#) | [Presentation](#) | [Recording](#)

January 13, 2022 Meeting 6:

Meeting: *Portfolio Workshop: Greenspace in the Floodplain*

Objectives:

- Understand the benefits of nature-based solutions that leverage greenspace in the floodplain
- Understand opportunity areas, the underlying data, and how to use the map app
- Site potential projects that utilize these techniques throughout the three counties

Materials: [Agenda and Notes](#) | [Presentation](#) | [Community Worksheet](#)

February 10, 2022 Meeting 7:

Meeting: *Portfolio Workshop: Community Stormwater Management*

Objectives:

- Understand the benefits of nature-based solutions that leverage greenspace in the floodplain
- Understand opportunity areas, the underlying data, and how to use the SUNS Map App
- Site potential projects that utilize these techniques throughout the three counties

Materials: [Agenda and Notes](#) | [Presentation](#) | [Recording](#) | [Guide: Adding Projects to the SUNS Map App](#)

March 10, 2022 Meeting 8:

Meeting: *Portfolio Workshop: Shoreline Protection*

Objectives:

- Understand the potential applications and benefits of nature-based shoreline protection techniques.
- Learn to use the [SUNS Map App](#) to identify potential sites for living shorelines, hybrid living shorelines, beach & dune restoration, or coastal wetlands.
- Site potential projects that utilize these techniques throughout the three counties and share ideas with Working Group

Materials: [Agenda and Notes](#) | [Presentation](#) | [Recording](#) | [Guide: Adding Projects to the SUNS Map App](#)

April 14, 2022 Meeting 9:

Meeting: *Portfolio Workshop: Regional Recreation Economy*

Objectives:

- Understand the potential recreational and economic benefits for nature-based projects.
- Use the [SUNS Map App to identify opportunities to use recreational programming or physical infrastructure connect projects](#) at the municipal and regional level
- Identify additional nature-based projects with explicit recreational or economic benefits

Materials: [Agenda and Notes](#) | [Presentation](#) | [Recording](#) | [Guide: Adding Projects to the SUNS Map App](#)
