# Traveling Turtles Trunk with TNC's Blowing Rocks Preserve

Borrow this hands-on trunk program to introduce your in-person or virtual students to the magical world of sea turtles while teaching them marine conservation and NGSS through inquiry-based learning.

- **FREE**
- Real-world scenarios
- 3rd-8th grade focused
- Lent out for several weeks
- Teacher workshops available

Help teach the next generation of scientists and responsible environmental stewards!

## COVID-COMPATIBLE OPTION

Trunks will be sanitized prior to your reservation. We give each teacher the option to run the program as it was originally created or to use our COVID-compatible version that utilizes social distancing and hands-off lessons.

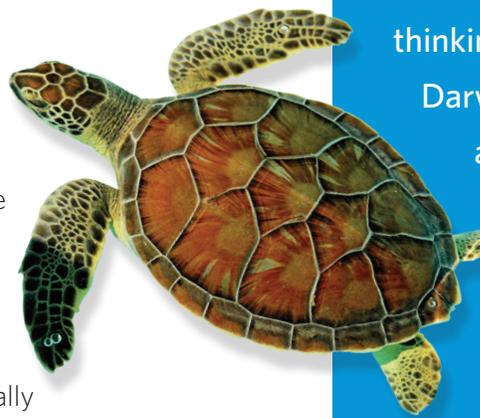

To learn more and/or reserve the trunk visit [nature.org/blowingrocks](https://nature.org/blowingrocks)

A PARTNER OF

"We had a lot of fun and learned so much. So many skills were utilized here, metric system, comparative anatomy, data collections, critical thinking, problem solving, Darwinian Adaptations, and so much more!"
