

Financial and technical assistance options for soil health

We recommend that you **contact an advisor with cover crop expertise** as your first point of contact for learning more about cover crops. The following specialists in Iowa can help you with personalized, local information.

Sarah Carlson, Midwest Cover Crop Director, Practical Farmers of Iowa

(515) 232-5661, sarah@practicalfarmers.org

Mark Licht, Assistant Professor, Department of Agronomy, Extension Cropping Systems Specialist

(515) 294-0877, lichtma@iastate.edu

Find the University Extension staff for your area at this website: <http://www.extension.iastate.edu/ag/crops>

Financial and technical assistance

USDA—NRCS federal cost-share

www.nrcs.usda.gov/getstarted

Iowa state office: (515) 284-6655

The Environmental Quality Incentives Program (EQIP) is a voluntary program designed to address conservation needs on farmland. Operators (and in some cases owners) can apply for cost-share to cover costs associated with, for example, cover crops and soil testing.

NRCS will help eligible producers develop a conservation plan, which will become the basis of the EQIP application. EQIP applications are ranked based on a number of factors, including environmental benefits and cost effectiveness of the proposal. Look for application deadlines in early 2018.

State cost-share

Information available through local Soil and Water Conservation Districts. Find your District office through the directory put together by Conservation Districts of Iowa.

Other information and assistance

Information on sustainable agriculture

Sustainable Agriculture Research and Education (SARE)

(612) 626-3113, www.northcentralsare.org

Midwest Cover Crops Council

(317) 392-6417, <http://mccc.msu.edu/>

Great site from Michigan State University for choosing the cover crop mix best suited to your farm.

Lease assistance

Ag Lease 101

www.aglease101.org

This website established by the North Central Farm Management Extension Committee includes materials created by economists and attorneys, including reports on fixed and flexible cash rental agreements and a crop-share lease template.

Drake University Agricultural Law Center

(515) 271-4956, <http://sustainablefarmlease.org/>

This website provides sustainable agricultural lease recommendations.

Peer-to-peer conservation assistance for landowners

Practical Farmers of Iowa

(515) 232-5661, www.practicalfarmers.org

This nonprofit seeks to “strengthen farms and communities through farmer-led investigation and information sharing.” They have an active listserv of landowners and operators interested in conservation. Their site includes fact sheets on cover crops and advice for landowners on talking with their operator.

Women, Food and Agriculture Network (WFAN)

(515) 460-2477, <http://www.wfan.org/>

This organization out of Ames, Iowa, provides mentorship, technical assistance and other programming for women landowners and farmers. Their Women Caring for the Land program offers workshops for women landowners. Check their calendar for upcoming events.

General management and real estate

Farm Management Companies

Companies such as Farmers National, Hertz and Peoples offer extensive services for non-operating landowners, particularly absentee landowners, as they manage all aspects of a farm in close communication with the landowner and operator.

Extension land value survey

Iowa State agricultural Land Value Survey, <http://www.card.iastate.edu/land-value/2016/>
