Healthy Agricultural Systems (HAS)

WATER FUNDS AND HAS IN THE CAUCA VALLEY

HAS PRESENCE IN THE UPPER AND LOWER PART OF THE CAUCA VALLEY

Focus on water resource management in the lower zone, where the sugarcane agribusiness is concentrated

Minimum areas under HAS practices in the lower Area of Valle del Cauca

Water resource management in the upper part by Water Funds

HAS BENEFITS IN THE LOWER AREA OF THE CAUCA VALLEY

Higher carbon capture
Higher water retention in the soil and less water consumption
Less contamination and sedimentation in water sources
More forests and green corridors
High sugar cane productivity
Increased water access
Increased biodiversity
