MOODY FOREST
NATURAL AREA
Tavia's Trail

This three mile loop trail traverses several natural communities.

MOODY FOREST
NATURAL AREA
Altamaha River Trail

This trail is two-miles round trip. It explores the bottomlands along the Altamaha River. It is fairly flat and can be muddy during periods of high water. A trail brochure describes plants, animals, and river floodplain geology at twenty numbered stops along the trail. You are about to enter a cool leafy community quite different from the drier uplands.
