

| | |
|---|--|
| Primary | Valdivian Coastal Reserve |
| Project Name Listed on Registry | Avoiding planned deforestation and degradation in the Valdivian Coastal Reserve project, Los Rios Region (Region XIV), Chile |
| Registry ID number | 1175 |
| Project Listing URL | https://registry.verra.org/app/projectDetail/VCS/1175 |
| Carbon Accounting Standard | VCS-REDD |
| Carbon Certification Standard | Verified Carbon Standard (VCS) Standard Version 4.5 (2023) |
| Registry Public Reports | https://registry.verra.org/app/search/VCS |
| Carbon methodology | VCS REDD+ Methodology VM0007 Version 1.5 (9/05/2015) |
| State/Province/Other | Los Rios Region (Region XIV) |
| Country | Chile |
| Crediting period (# of years) | 20 |
| Project start year | 2003 |
| Carbon Credit Vintages and Issuances | Carbon credit issuances by vintage can be found on the Public Reports section of the registry at the URL provided above. |
| NCS Pathways Combined | Avoided forest conversion |
| Emissions Reductions Type | Reductions |
| Durability Period | In accordance with the Carbon Certification Standard, the Project is required to maintain the project activities for 20 years. |
| Annual Carbon Credit Generation Volume | Ex-ante credit projections can be found on the Project Listing at the URL provided above. |
| Additional Project Notes | The Project meets standards established by law. |
| Additional Project Notes2 | The Project has been third-party validated and/or verified. All relevant validation and/or verification reports can be found on the Project Listing at the URL provided above. |
| Additional Project Notes3 | To address reversals, the Project contributes carbon credits to a buffer pool established by the crediting standard. The number of carbon credits contributed for each issuance is determined in accordance with Carbon Certification Standard and the Project Methodology. The calculations for such contributions and the contributions for each issuance can be found in verification documents on the Project Listing at the URL provided above. |
| Additional Project Notes4 | The process to address any shortfalls of contracted carbon credits from the Project is specific to each agreement governing such carbon credits. |
| Additional Project Notes5 | Documents containing data and calculation methods used to determine the number of emissions reduction and/or removal credits issued using the protocol can be found on the Project Listing at the URL provided above. |
